

## Autumn 2025 - Moments of Connection

At Coreset, we believe art has the power to change lives, change the world and change the future for us all. We have created a unique and inspiring place for everyone to explore their creativity and learn from professionals. We are committed to helping people discover their creative potential.

In Autumn 2025 we want to focus on the 'moments of connection' throughout our lives and the influence they have on how we see the world. We want to think about the impact young creatives can have in Newark and explore how they can have a voice in decision-making.

**What we're offering:** A space for young people to call their creative home, somewhere for you to set up a studio and make your work. We have lots of artists in residence, who will be in and out of the studios, they will be able to talk to you and help you with your work and career/education goals (if you want!).

**What we need from you:** You need to be living or studying in Newark aged between 17 and 25. Finally we need you to fill in this form to tell us all about you and your creativity.

Please send via email to [info@coreset.org](mailto:info@coreset.org) with 'Residency Application' in the subject heading on or before 31 July 2025.

### Application Form
